# Introduction

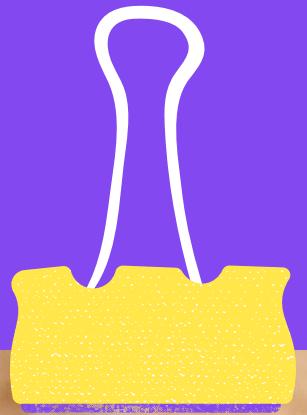

The Python Software Foundation (PSF) is an organization devoted to advancing open source technology and has participated in Google Summer of Code since 2005.

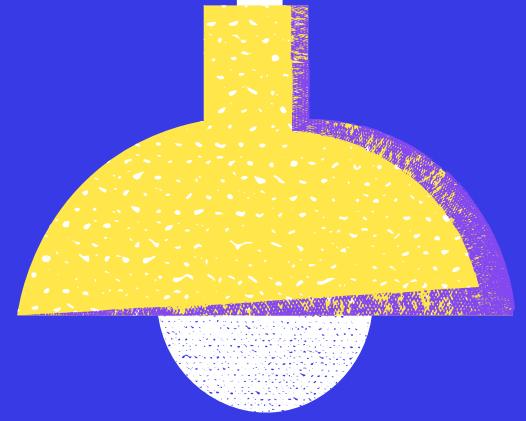

EOS UI/UX solutions is an open-source organization that aims to help improve user experience with a set of products like the EOS Design system, EOS Icons, User Story, and more to come.

# Tech Stack

- JavaScript
- React
- Nodejs
- Express
- Koa
- Strapi
- GraphQL
- MongoDB
- Pug.js
- SCSS

- EOS Design System (read only)
- EOS Icons
- EOS Icon Picker
- User Story
- EOS Strapi

## Project Demos

# New Project

## Ideas for

### GSoC 2021

EOS Icons React library

EOS Icons (Improvements)

EOS Icons (Extensions for 3rd party apps)

User Story (Enhancements)

EOS Icons API

# Deep Dive into Strapi

Aim?

Explore the Strapi source code

Why?

Better understanding for working on the User  
Story backend

Make Strapi better.

# GSoc Proposal Writing

Name of Sub Organization

1 Pull Request (Open/Merged)

Implementation details (visuals, demo video)
